Official Notification

Dear Sirs,

This letter serves as an official statement from the international concern DoorHan that it does not and has never had any trade, distribution, or other business relations with the Islamic Republic of Iran, or with any companies or individuals registered in this jurisdiction.

Online resources have been identified that wrongfully associate our company with Iran. As an example, we attach screenshots from the website <https://iranindustryexpo.com/>, which illegally uses our brand. To confirm the inauthenticity of the information on this resource, we provide the following evidence:

1. Use of an Invalid Logo:

The website uses an outdated DoorHan logo that has not been used by the company for many

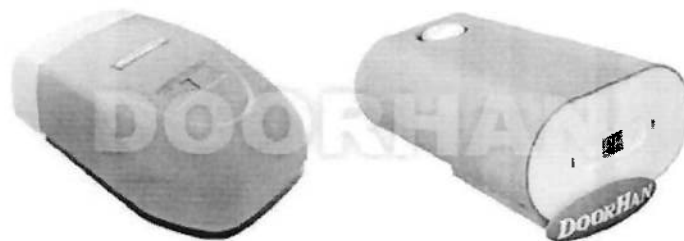

years.

The current active logo of DoorHan is:

DoorHan®

2. Display of Obsolete Products:

The website displays products that have long been discontinued and are not part of the DoorHan

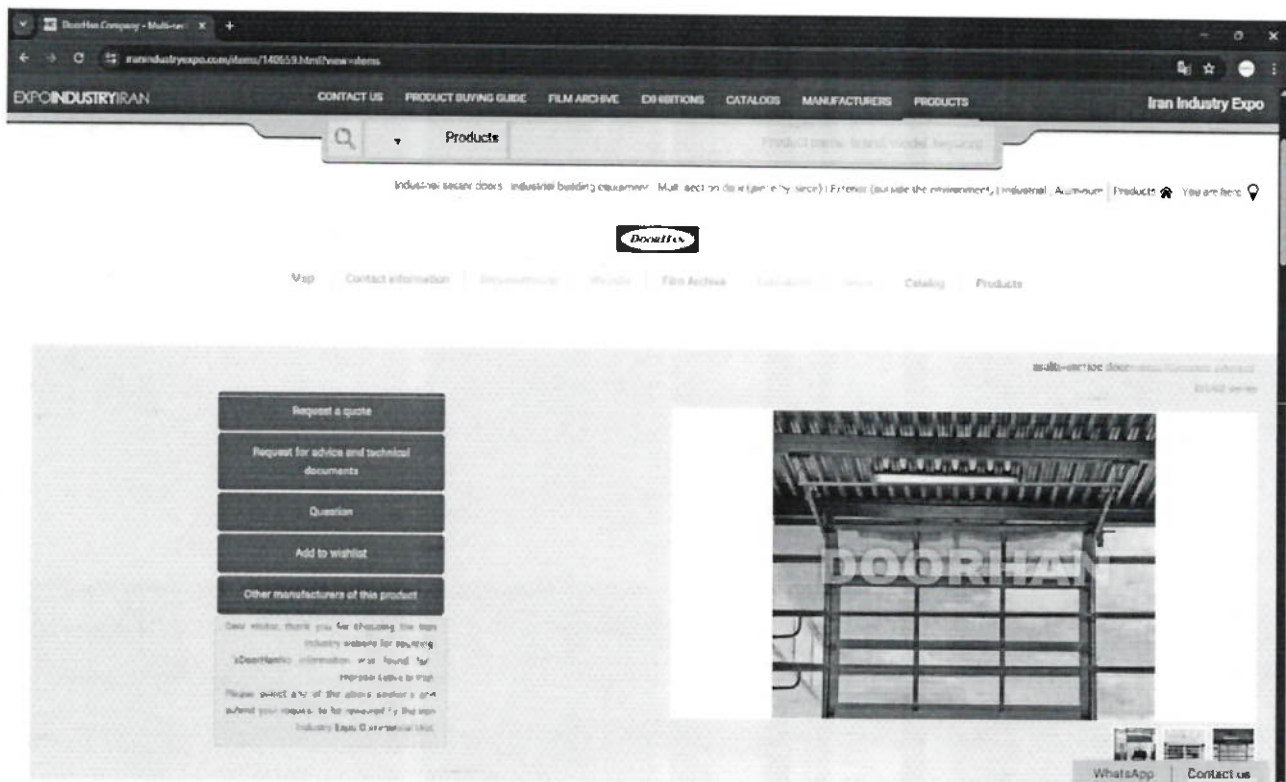

assortment, which may indicate an attempt to sell counterfeit goods.

3. Direct Indication of No Representation:

In the company description on the very same website, it is explicitly stated that DoorHan has no official representation in Iran, which unambiguously confirms the unauthorized use of our brand.
